THE CHANGING FACE OF THE PEORIA CHAPTER OF ASM

If you joined us for any of our technical meetings this year you may have noticed that it was a joint meeting with the Central Illinois Chapter of AFS. This was the first stage of joining our local chapters to better serve our membership. As a result of this alliance, you will see a number of changes next year. The newsletter and website will be renovated and will bear the name of both organizations. The technical meetings and social night (Christmas party in December) will continue to be joint, as they were this year. Over the next two years our chapter leadership will be merged to where we have a single chair and vice-chair who oversees the activities of both organizations. I hope you will join us for some of the many events our joint chapters will provide in service to our membership in Central Illinois.

MATERIALS CAMP

Hopefully by now you have heard about the materials camp which ASM International offers to high school students who have completed their sophomore and Junior years. The Peoria Chapter of ASM is exploring the possibility of holding a local materials camp in the summer of 2005. This is a great opportunity to get students excited about the field of metallurgy and materials. If you and/or your company would be interested in participating in this effort, please contact our Chapter Chairman, Ken Burris.

Just a reminder to plan for the
ASM Golf Outing traditionally
held in September. Stay
tuned to the chapter website
for announcement of this and
other exciting activities that will start
early in the next ASM season.
